

# HR Toolkit: MI & Metrics

## Knowledge is power.

Put a world of crucial management information at your fingertips.

Modern HR departments need to be aligned with business objectives, meaning that access to management information is even more crucial than before.

Ceridian HRevolution's Management Information and Metrics feature puts this information at your fingertips. Many companies struggle to integrate people, financial and organisational information in one place – yours can do this without resorting to expensive report writing consultancies – and all at the click of a button.

Ceridian HRevolution takes my company's vital HR data and presents it in a simple, clear manner that helps me to make crucial decisions.

*Finance Director*

Our solution is built around the technology that links each module. The Management Information and Metrics feature interacts with the on-demand modules, pulling together the data with powerful, quality presentation charting.

### Benefits
